deluxe x-ray illuminators

This line of illuminators is fabricated specifically to order and offers high luster, white powder coated, all steel construction with a one piece Plexiglas viewing panel. The screen is easily removed without tools for quick access to lamps. They are furnished with an instant start ballast and a self-adjusting gravity roller grip which holds x-rays securely in place. These x-ray illuminators are supplied with two 15W fluorescent tubes/panel. They are optionally available at additional cost, with 3 and 4 tubes/panel. Prices available on request. (see standards and options, below)
